

Sunbelt Supply Co.®

VALUE-ADDED SERVICE

FUSION RENTALS REPAIR

FIELD FUSION

Sunbelt Supply Co. provides factory-trained fusion technicians for installations in the field to meet demanding customer requirements. We provide a field superintendent for every job who will oversee the work from the initial bidding stages through completion.

PLASTIC FABRICATION SHOP

Sunbelt Supply Co. 17,000-square-foot fabrication and machine shop in Lakeland, Florida, works with Polyethylene (HDPE), Polypropylene (PP), PVC, CPVC, PVDF (Kynar) and Teflon to build fabricated pipe assemblies, fittings, spacers, tanks, manholes, spillways and other specialty items.

ELECTROFUSION

Our team of factory-trained fusion technicians are capable of both electrofusion and butt-fusion installations in a variety of applications. We handle only the top manufacturers and stock their equipment to ensure the fusion is done correctly. We stock electrofusion processors, scraper tools, and generators, all of which are available for rent. We also offer this equipment for purchase as both new and used.

FUSION MACHINE RENTAL

We handle a wide variety of McElroy Fusion Machines capable of fusions from 1" to 65". Our fleet of machines are available for rent directly to our customers, or we can provide our factory-trained fusion technicians to assist in the installation of HDPE pipe at your jobsite. Sunbelt Supply Co. supplies both rolling and track machines depending on your needs.

FUSION MACHINE SALES

We now sell both new and used McElroy fusion machines. Our fleet is constantly being rotated and serviced in house to ensure the machine you purchase is top quality and dependable. Sunbelt Supply Co. is an authorized McElroy stocking distributor with machines from 1" to 65" to satisfy any project requirement. We stock a wide variety of parts to cover any needs that may arise.

FUSION MACHINE REPAIR

Sunbelt Supply Co. is an authorized McElroy repair center with three full-time factory-trained mechanics on staff. They are responsible for the upkeep of our fleet of fusion machines to ensure that they remain in top working order. If a customer owns their own machine, Sunbelt Supply Co. can do everything from a simple oil change to a complete overhaul of the machine using quality OEM parts to make certain the machine operates like new. In addition, we stock various parts that are available if a customer wants to buy and install them on their own.
